**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Richard Elias on February 7, 2005.

Nonelected claims 2 and 5 have been canceled.

### **REASONS FOR ALLOWANCE**

2. Claims 1 and 3-4 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art an active-matrix transfective liquid crystal display device comprising a combination of various elements as claimed, more specifically: each of the semiconductor elements adjacent to the element substrate having a light-shielding layer that shields the semiconductor element from incident light, the light shielding layer having openings in substantially the same regions as those of the openings in the reflective plate.

Okamoto ('660) discloses an active-matrix transfective liquid crystal display device comprising a reflective plate and light shield layer having openings. However, Okamoto fails to disclose 'each of the semiconductor elements adjacent to the element substrate having a light-shielding layer that shields the semiconductor element from incident light, the light shielding layer having openings in substantially the same regions as those of the openings in the reflective plate'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
